PART 1010—SUSPENSION ORDERS

[Suspension Order S-895]

GILBERTON CO., PHILIP SPARACINO, ISLAND PUBLISHING CO., INC., EUGENE BLUMENTHAL, AND HOWARD CUMMINGS

Albert L. Kanter, Rose E. Kanter, Raymond N. Haas and Myer Levy, partners doing business under the trade name of

Gilberton Company, are engaged in the business of publishing comic magazines at 510 6th Avenue, New York City. Among the magazines they publish is Classic Comics, a title which they own. Philip Sparacino with offices at 24 Eldridge Avenue, Hempstead, Long Island, New York, is the owner and publisher of Long Island Independent and Nassau Bulletin, suburban weekly newspapers, Island Publishing Co., Inc. is a corporation wholly owned by Eugene Blumenthal with offices at 351 W. Olive Street, Long Beach, Long Island, New York and is engaged in publishing Long Beach Life, a suburban weekly newspaper. Howard Cummings with offices at 235 Braddock Avenue, Queens Village, Long Island, New York, is the owner and publisher of Queens County Times, Queens Home News, Sunrise Times and Richmond Hill Courier, suburban weekly newspapers.

At the close of 1943, Gilberton Company had exceeded its permissible quota of paper for the publishing of Classic Comics, by approximately 96 tons. Sparacino, Blumenthal and Cummings, who had no quotas for the publishing of magazines under Limitation Order L-244, contracted with Gilberton Company to publish reprints of Classic Comics to the extent of 90 tons annually for each of the newspapers published by each of them respectively, or 630 tons of newsprint for the seven newspapers. Pursuant to this agreement, Gilberton Company arranged for the purchase of newsprint and the printing and distribution of Classic Comics, and performed all of the functions of publisher, assuming the ultimate risk of the publishing venture. However, Sparacino, Blumenthal and Cummings lent the names of their newspapers, probably representing them to be the publishers of the various reprints of Classic Comics printed and published during the year 1944, and received financial benefits from the use of newsprint used to print and publish Classic Comics in violation of Limitation Order L-244. During the year 1944, Philip Sparacino thus caused to be used illegally 180,779 tons of newsprint; Island Publishing Co., Inc. and Eugene Blumenthal thus caused to be used illegally a total of 89,845 tons; and Howard Cummings thus caused to be used illegally a total of 350,874 tons of newsprint.

Sparacino, Blumenthal and Cummings also failed to furnish the printer with the certification required by Order L-244 but instead furnished certificates referring to Order L-241.

The Gilberton Company, through its individual partners and through Eugene Blumenthal, Island Publishing Company, Inc., Philip Sparacino and Howard Cummings and each of them individually, violated one or the other of Limitation Orders L-240, L-241, L-244, and Priorities Regulation 7A. Their actions were wilful and resulted in the diversion of critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.895 *Suspension Order No. S-895.* (a) Albert L. Kanter, Rose E. Kan-

ter, Raymond N. Haas, and Myer Levy, partners, doing business as Gilberton Company, Philip Sparacino, Island Publishing Co., Inc., and Eugene Blumenthal, and Howard Cummings, their respective publications, their successors, assigns, and persons or corporations acting for or on behalf of any of them, shall not use or cause to be used any newsprint for the printing or publishing of magazines, newspapers, periodicals or books so long as the allocation of such newsprint or paper is governed and controlled by any order or regulation of the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Albert L. Kanter, Rose E. Kanter, Raymond N. Haas, and Myer Levy, partners, doing business as Gilberton Company, Philip Sparacino, Island Publishing Co., Inc., and Eugene Blumenthal, and Howard Cummings, their respective publications, their successors, assigns, persons or corporations acting for or on behalf of any of them, from any restriction, prohibition contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 29th day of August 1945.

Issued this 22d day of August 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-898]

JOHN THOMAS AND HAROLD AMUNDSON

John Thomas of 1933 1st Avenue, Seattle, Washington was authorized by the War Production Board on March 15, 1945 to construct a six room three-bedroom house without garage at 3419 West 67th Street, Seattle, Washington, at an estimated cost of \$8000.00, incorporating therein 15,000 board feet of lumber, of which no more than 6500 board feet were to be new dimension lumber. Thereafter John Thomas and Harold Amundson of 5100 Shilshole Avenue, Seattle, Washington, his building contractor, commenced construction at that address of a six room house with attached garage at an estimated cost of about \$15,000, and ordered and accepted delivery therefor approximately 33,187 board feet of new lumber, of which 21,279 board feet was dimension and 11,908 board feet was board lumber. The carrying on of such construction at a cost in excess of the amount authorized by the War Production Board constituted a violation of Conservation Order L-41.

This violation has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.898 *Suspension Order No. S-898.* (a) Neither John Thomas nor Harold Amundson, their successors or assigns, nor any other person, shall do

any construction on the house or garage at 3419 West 67th Street, Seattle, Washington, including putting up or altering the structures, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve John Thomas or Harold Amundson, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 29th day of August 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 27, Interpretation 2]

The following interpretation is issued with respect to Priorities Regulation 27:

Priorities Regulation 27 provides that under certain conditions manufacturers who need small amounts of materials may use the AA-4 rating and Z-3 allotment symbol on orders calling for delivery of controlled materials and other production materials up to December 31, 1945.

In view of the provisions of Priorities Regulation 29, which invalidate all AA ratings and allotment symbols after September 30, 1945, the rating and allotment symbol assigned in Priorities Regulation 27 will not be valid on orders calling for delivery after that date.

Any person operating under Priorities Regulation 27, who needs priorities assistance on orders calling for delivery of production materials after September 30, 1945, may apply for priorities assistance under the rules stated in Priorities Regulation 28, if he can meet the conditions stated in Priorities Regulation 28.

PART 984—LEAD

[General Preference Order M-38, as Amended
Aug. 30, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38—(a) Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the War Production Board relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be in-

corporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Prohibitions on use.* On and after April 1, 1945, no person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order, and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

(d) *Special directions.* The War Production Board may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Metals Reserve Company.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Metals Reserve Company must make application in writing to the War Production Board on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal, and filed with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. The appeal shall contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information

as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

Attention is called to the requirement of Priorities Regulation No. 16 with respect to the statement of manpower requirements which must be submitted with any appeal.

(j) *Priorities Regulation No. 25.* Requests for exceptions from the restrictions of this order may not be made under the provisions of Priorities Regulation No. 25. The use of lead for production authorized under Priorities Regulation No. 25 prior to January 1, 1945, will be subject to the restrictions of this order.

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the War Production Board on Form WPB-95.

(2) The War Production Board may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the War Production Board such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications of the War Production Board.* All communications and reports dealing with this order shall be addressed to: War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., Ref. M-38

Issued this 30th day of August 1945.

[General Conservation Order M-241, as Amended Aug. 30, 1945]

PAPER AND PAPERBOARD

§ 3281.63 *General Conservation Order M-241*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production

Board, as amended from time to time, except to the extent of any inconsistency, in which event the provisions of this order shall govern.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" and "manufacture" mean and include all making and finishing operations prior to packing or packaging.

(3) "Finished production" means paper or paperboard ready for packing or packaging.

(4) "Grade" means any kind of paper or paperboard for which a caption or subcaption is provided in Form WPB-514 or any particular grade even though not specifically mentioned within such kind, except those grades listed below which are covered by other WPB orders as specified. Also included are all the coated papers not mentioned by captions but for which any captioned grade or item thereunder is used as a base stock.

Paper and paperboard under the following WPB-514 Captions in the table immediately following are specifically excluded from this order and are subject to and should be reported under the appropriate controlling order indicated therein.

board for the month of October, 1944, and for each calendar month thereafter time and supplies sufficient to produce and deliver within such month the following percentage applied either to his total production or to his production of a stated "grade" or "class" as indicated in Table II:

TABLE II

NOTE: Table II amended in its entirety Aug. 30, 1945.

Type	WPB-514 caption	Percent
(Class) Rag content fine papers.....	041100 to 041190 inclusive and 043100 to 043190 inclusive and 046100.....	35
(Class) All other papers and paperboards.....	All other captions except those excluded under paragraph (b) (4).....	20

The War Production Board may from time to time change such percentage or percentages and apply percentages to other grades or combinations, by notice in writing to each manufacturer or by publication in the *FEDERAL REGISTER* prior to the first of the month to the production of which such change is applicable.

(ii) When production is reserved by applying a percentage to a "Class" as in Table II, the production of such "Class" for which the manufacturer is obligated shall be determined by applying the percentage to the average monthly production of such class which the manufacturer has, by record, reported for his most recent three calendar months on Form WPB-514.

(iii) On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve production for any month to produce any grade of paper or paperboard which such manufacturer is qualified to produce and in any quantity not exceeding the percentage of his production designated for such month by the War Production Board less his tonnage credit

current at the time against such month's reserve production under the provisions of paragraph (d) (4). Similar directions may be issued by the War Production Board after the 15th day of any month under paragraph (d) (2) (ii). The War Production Board may require the manufacturer to sell and deliver such tonnage to any person it may name. The manufacturer may refuse to so produce, sell, or deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1.

(2) (i) If, on or before the 15th day of any month in which production is reserved, the manufacturer does not receive from the War Production Board directions as to the disposition of all production reserved in such month, he may employ, subject to the provisions of paragraph (d) (2) (ii) below, the production for which no directions have been received as he may desire consistent with the provisions of this and other orders of the War Production Board.

(ii) If, as of record with the War Production Board on the 15th day of any month, a manufacturer of paper or paperboard has not been credited with accepting voluntarily or by directive

from the War Production Board an order or orders for paper and paperboard to be delivered directly or through another person to the Armed Forces (i. e., the first six procurement activities listed in paragraph (d) (5)) from his production in such month in a total amount equal to 30% of his reserve production by type, the manufacturer shall continue to be obligated for such month until the close of the fourth calendar day prior to the first day of the next succeeding month, for that portion of such percentage of his reserve production for which he has accepted no orders for delivery to the Armed Forces.

(3) [Deleted Aug. 30, 1945.]

(4) (i) *Credit for directed tonnage.* Should the War Production Board direct a manufacturer of paper or paperboard to accept an order to be shipped from his reserve production, the reserve production for which such manufacturer is obligated shall be reduced (except as provided in the paragraph immediately following) by the tonnage specified in such directive, and such reduction concurrently recorded to such manufacturer's credit on the records of the War Production Board.

(ii) *When directed tonnage is not credited.* Credit against the reserve production obligations of a manufacturer is not given for the tonnage specified in a directive when the following conditions prevail:

(a) Any one of the first six procurement activities (the Armed Forces) requests a qualified manufacturer to bid on a contract or accept a purchase order from such activity, and

(b) The manufacturer fails to bid on the contract or refuses to voluntarily accept the purchase order, and

(c) The War Production Board records on the acceptance of contracts and purchase orders by such manufacturer against his reserve production show that the acceptance of such contract or part thereof or such purchase order at the time the request was issued would not have caused him to produce more tonnage in any month than his reserve production obligations for such month, and

(d) Because of such failure to bid on the contract or refusal to accept the purchase order, a directive is issued to the manufacturer by the War Production Board.

(iii) Any manufacturer who has accepted, directly or through another person, an order or orders for paper or paperboard to be produced for the account of any activity or use listed in paragraph (d) (5), shall immediately report such acceptance in triplicate on Form WPB-3270 and thereafter shall immediately report to the War Production Board on such form any change requested by the purchaser in any previously reported order or orders, if such change involves cancellation, or a change in quantity or in the month of manufacture. When the proper order or orders or requested changes reported on Form WPB-3270 have been correctly reported to the War Production Board, the manufacturer will be notified accordingly and credit against the manu-

facturer's reserve production will be recorded, subject to the provisions of paragraph (d) (2) (ii). Thereafter the manufacturer shall produce such orders according to his schedule as so reported to the War Production Board. (The reporting requirements of this paragraph have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.)

(5) Procurement activities:

1. United States Army.

(Report Government Department, Order Number and Name of Converter or user. If the use of the paper cannot be identified directly with a Government Order Number by a producer of a product of indirect military or Governmental nature, then the CMP Allotment Symbol, if available, and the name of the product may be supplied for identification.)

(e) *Restrictions on inventory.* Unless specifically authorized by the War Production Board or excepted by paragraph (e) (5):

(1) *Consumers inventories except those covered by L-240.* (i) No person shall knowingly deliver to any person except a paper merchant, and no person except a paper merchant shall accept delivery of, any quantity of paper or paperboard if such person's total inventory is, or will by virtue of such delivery become, in excess of the greater of (a) thirty tons or (b) thirty calendar days' supply on the basis of his average rate of consuming such paper and paperboard for the latest preceding three full calendar months.

(ii) Regardless of the provisions of (1) (i) above no person shall knowingly deliver to a manufacturer of folding boxes, setup boxes, or paper shipping sacks and no manufacturer of folding boxes, setup boxes, or paper shipping sacks shall accept delivery of any quantity of paper or paperboard if the manufacturer's total inventory of paper and paperboard is, or will by virtue of such delivery become, in excess of the greater of (a) forty tons or (b) sixty calendar days' supply on the basis of his average rate of consuming

such paper and paperboard during the latest preceding three full calendar months.

(2) *Merchant inventories.* No paper merchant shall accept delivery of, and no person shall knowingly deliver to a paper merchant, any paper or paperboard for his warehouse stock if the dollar inventory value, as determined by customary accounting practice, of all paper and paperboard (excluding that which has been sold to and paid for by another person) in the merchant's store and warehouses exceeds or by virtue of such delivery will exceed fifty percent (50%) of the total merchant cost price of the merchant's total dollar sales from his store and warehouse inventory during the first six months of 1944. Each affiliate, subsidiary or branch is to be considered individually in applying the provisions of this paragraph.

(3) *Mill inventories.* "Mill inventory" means all paper and paperboard other than that produced or being produced for prompt shipment against a definite order.

No person shall produce at any mill any quantity of paper or paperboard, if his total inventory at such mill is, or will by virtue of such production become, in excess of the greater of (a) thirty tons, or (b) thirty calendar days' supply on the basis of the average rate of shipment of paper or paperboard from such mill during the latest preceding three full calendar months.

(4) (i) *Restrictions on delivery of all paper except newsprint: certification requirements.* No mill or other supplier shall sell or deliver to a paper merchant any paper, except newsprint, unless the paper merchant has previously furnished the mill with a certification in substantially the following form signed manually or as provided in Priorities Regulation No. 7 by an official duly authorized for such purpose:

The undersigned certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board that he is familiar with Order M-241 and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance therewith.

No paper merchant and no person on behalf of a paper merchant may order or accept delivery of any paper (except newsprint), from a paper mill or other supplier unless he furnishes, or has previously furnished to the person making the delivery the certification described above. The above certification must be used and the certification provided for in Priorities Regulation No. 7 may not be used in its place. This is a one-time certification and need not accompany each individual order for paper.

(ii) *Certification requirements for newsprint deliveries.* No mill or other supplier may sell or deliver to any person, and no person may accept, any newsprint except on a delivery order bearing or accompanied by a certification substantially in the form set forth below. This certification must be signed manually or as provided in Priorities Regulation No. 7 by the purchaser or by an official duly authorized for such purpose.

The undersigned certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board; (a) that he is permitted to place this delivery order and to accept the newsprint ordered; (b) that the newsprint will be used or delivered, or that it is required to replace in inventory newsprint previously used or delivered, under the following War Production Board Order: L-240.

The above certification must be placed on, or must accompany, each delivery order for newsprint placed by any person, and the certification provided for in Priorities Regulation No. 7 may not be used in its place. Paper mills have orders for more newsprint than the mills are capable of filling. It is the intention of the War Production Board that previous users of newsprint who purchase through dealers shall receive the same consideration as those who purchase directly from the mills. These certifications will provide the mills with the information necessary to enable them to deliver newsprint to direct purchasers and (through dealers) to indirect purchasers on the basis of previous usage of newsprint.

(iii) No manufacturer, paper merchant or other person shall sell or deliver paper or paperboard to any other person whose inventory or use of paper or paperboard is controlled by one of the orders in List I below unless and until he has received such certificates (if any) as may be called for under the order governing delivery and use of the paper and paperboard by the purchaser:

LIST I

L-240..... Newspaper publishers
M-241..... Paper and paperboard

(5) *Item inventories.* The restrictions of paragraph (e) apply equally to paper and paperboard of foreign and domestic origin, and apply to intra company deliveries as defined in § 944.12 of Priorities Regulation No. 1. They do not, however, apply to those papers commonly reported on United States Department of Commerce (Census) Form WPB-514, as revised, under the captions "Blueprint and similar base stock (043110 and 043210); photographic and other sensitizing stock (043130, 043220 and 043230); and Cigarette (047300)"; or to any paper or paperboard after it is printed or to paper or paperboard converted otherwise than by coating.

(f) *Miscellaneous provisions—(1) Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports

and questionnaires as said Board shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(4) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(6) *Communications.* All communications concerning this order shall unless otherwise directed be addressed to War Production Board, Paper Division, Washington 25, D. C., Ref.: M-241.

OFFICE OF PRICE ADMINISTRATION.

[Supp. Order 108,¹ Special Order 3]

TEMPORARY ADJUSTMENT OF CERTAIN MAXIMUM AVERAGE PRICES

An opinion accompanying this Special Order No. 3, under section 17 of Supplementary Order 108 has been issued simultaneously herewith and filed with the Division of the Federal Register.

SECTION 1. Purpose of this order. This special order contains a list of prices, hereafter called "exemption prices," for specified categories listed in section 7. Persons who delivered items in those categories in their base periods at prices below these exemption prices may recompute their maximum average prices for the third and fourth quarters of 1945 under this order.

SEC. 2. Manufacturers to whom this order applies. This order applies only to manufacturers of the categories listed in section 7 who have filed charts listing their maximum average prices for those categories under Supplementary Order 108. In this order, the maximum average prices which you listed in your chart are called "original maximum average prices."

SEC. 3. How to recompute your maximum average prices for the third and fourth quarters of 1945—(a) Persons who used quarterly base periods. If you have used quarterly base periods for a particular category, you may recompute a separate maximum average price for each of the third and fourth quarters of 1945, as follows:

Step 1 For each such quarter, find those deliveries in the category, which you made during the base period for that quarter at net prices lower than the exemption price listed for the category in column 2 of section 7.

Step 2. Find the total net dollar amount charged for those deliveries.

Step 3. Multiply the number of units delivered at those lower prices by the exemption price for that category.

Step 4. Subtract 2 from 3.

Step 5. Add the difference to your total net dollar amount charged for that category during your base period.

Step 6. Divide the result by the total number of units delivered during your base period.

You have now recomputed your maximum average price for that category (called hereafter your "recomputed maximum average price") as if all the units you delivered at prices below the exemption price had been delivered at the exemption price.

(b) Persons who used half-year base periods. If you have used half-year base periods for a particular category, your base period is six months instead of two separate quarters, and thus you have the same maximum average price for each of the last two quarters of 1945. Therefore, you follow the six steps in paragraph (a) using all of your deliveries in the category for the six months period rather than for the quarterly periods. This will give you one recomputed maximum average price for each of the last two quarters of 1945.

(c) Persons who used year-round base periods. If you have used a year-round base period for a particular category, in following Steps 1 through 6, you must consider all deliveries in the category during the entire year 1943 to find your recomputed maximum average price.

SEC. 4. Adjustment of maximum average prices. If you recomputed your maximum average prices for any category under section 3 of this order, you may increase your original maximum average prices for the 3d and 4th quarters of 1945 to the maximum average prices you recomputed for each of those quarters.

SEC. 5. Filing of new maximum average prices. If you wish to use your adjusted maximum average prices for the third and fourth quarters of 1945, you must, on each copy of your quarterly report for the third quarter of 1945, state your adjusted maximum average price for the third quarter of 1945 instead of your original maximum average price for each category for which you have adjusted your maximum average prices under this order. In addition, you must file a separate statement together with each copy of this quarterly report showing your adjusted maximum average prices for the fourth quarter of 1945, and you must also state the following information separately for the third and fourth quarters:

(a) Category number of each category whose adjusted maximum average price has been found under section 3.

(b) Total net dollar amount charged for items in the category delivered during your base period for the quarter at prices below the exemption price.

(c) Total number of units delivered in the category during your base period for the quarter at net prices below the exemption price.

SEC. 6. Effect of this order on other regulations. No provision of this order shall be construed to amend or change the provisions of the maximum price regulations applicable to the items covered by this order, including the highest price line limitations.

W. B. MARVIN MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (a) (16) of Order A-2 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* W. B. Marvin Manufacturing Company, Urbana, Ohio, may sell and deliver to jobbers, the articles of "Metal Louver Window Ventilators" of its manufacture at prices no higher than its prices for such sales, in effect immediately prior to the effective date of this order plus the adjustment charges set forth below:

Article	Model No.	Current maximum price to jobbers	Permitted adjustment	Adjusted maximum price to jobbers
Metal louver window ventilator.	401 and 137.	Dozen \$2.73	Dozen \$0.31	Dozen \$3.04
Metal louver window ventilator.	1136 and 237.	3.46	.43	3.89

These adjusted maximum prices may be charged and collected only if the amounts of the adjustment are specifically stated on each invoice. The adjusted maximum prices are subject to the manufacturer's customary terms, discounts, allowances, and other price differentials in effect during March 1942 for sales to this class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect prior to the issuance of this order, an adjustment charge in the same amount as the adjustment charge herein authorized for and which he pays to his supplier. If such a purchaser did not have an established maximum price for sales of the article prior to the issuance of this order, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable price regulation. If the applicable regulation requires maximum resale price to be computed on the basis of costs, the reseller must find his maximum prices (without the permitted adjustment charge) by using as costs his invoice costs not including any adjustment

charges stated on the invoice. On all sales except sales to ultimate consumers these additional adjustment charges may be made and collected only if they are separately stated on each invoice. The adjusted maximum prices are subject to each seller's customary terms, discounts, and allowances on sales to the same or similar articles, to each class of purchaser.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 29th day of August 1945.

Issued this 28th day of August 1945.

Pursuant to the authority vested in the Regional Administrator of Region V by § 1340.260 of Revised Maximum Price Regulation No. 122 and for the reasons stated in the opinion issued simultaneously herewith, it is ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels within the corporate limits of the city of Sedalia, Missouri, as established by city ordinance. The prices set forth in this order are the highest prices that any dealer may charge when he sells or delivers any of such fuels at or to a point within the area covered hereby.

(1) *Solid fuels not covered by this order.* There are a few kinds and sizes of solid fuels covered by Revised Maximum Price Regulation No. 122 sold and delivered in the area covered by this order which are not included in and for which prices are not established by this order. The maximum prices of such solid fuels when sold by any person covered by this order shall continue to be the maximum prices for such fuels established by Revised Maximum Price Regulation No. 122, as amended. Such sales shall in all respects be governed by the provisions of Revised Maximum Price Regulation No. 122, as amended.

(b) *What this order prohibits.* Regardless of any obligation no person shall:

(1) Sell, or in the course of trade or business buy, solid fuels at prices higher than the maximum prices set by this Order No. G-8; but less than the maximum prices may at any time be charged, paid or offered.

(2) Obtain higher than maximum prices by:

(i) Charging for a service unless such service is expressly requested by the buyer and unless specifically authorized to do so by this order;

(ii) Charging a price higher than the schedule price for a service;

(iii) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him; or

(iv) Using any other device by which a higher than maximum price is obtained directly or indirectly.

(c) *Price schedule.* (1) Below and a part of this section is the maximum price schedule which sets forth maximum prices for sales by direct delivery of specified sizes, kinds and quantities of solid fuels.

(5) Standard nut, (top size 3" to larger than 2"; bottom size 1½" or smaller)	6.02

(2) The prices set forth in the foregoing schedule are on a per ton basis (2,000 pounds to the ton). No dealer may add to the Schedule prices an additional charge for the extension of credit.

(3) Prices set forth in the foregoing schedule are for untreated coal. The dealer may charge an amount not to exceed 10¢ per ton in addition to the schedule prices when the coal is thoroughly and adequately treated, chemically or with oil, to allay dust or prevent freezing (see section (j)).

(4) A deduction from the prices set forth in the foregoing schedule of not less than 25¢ per ton must be made on all sales made for cash on one ton or more of solid fuels covered by this order. "Sales made for cash," for the purposes of this order, means all sales in which payment is made on or before delivery.

(5) A deduction from the prices set forth in the foregoing schedule of not less than 50¢ per ton must be made on yard sales of solid fuels covered by this order in quantities of one or more tons. If the sale is made for cash, as the term is used and defined in the foregoing subparagraph (4), this deduction on yard sales must be made in addition to the deduction for sales made for cash as provided for in subparagraph (4) above. "Yard sales," for the purposes of this order, means sales in which the buyer takes delivery at the dealer's yard.

(6) The maximum price on all sales of small lots in quantities of less than one ton put into the buyer's car or other conveyance at the dealer's yard shall be 45¢ per hundredweight for high volatile fuels and 65¢ per hundredweight for low volatile fuels. In sales of this kind the buyer may be required to furnish the container. If the buyer does not possess a container, the dealer may require a deposit charge equivalent to the replacement cost when such container is furnished.

(7) An addition not to exceed 35¢ may be added to the fractional per net ton price set out in the foregoing schedule when the dealer sells and delivers one-half ton.

(d) *Service charges.* (1) Below and as a part of this section (d) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under preceding section (c). These charges may be made only if the buyer requests such services of the dealer and only when the dealer renders the services.

(i) A service charge not to exceed 50¢ per ton may be charged for the "carry in" services. The "carry in" service means the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space to the buyer's fuel bin window. This service does not include the service of carrying fuel up or down stairs.

(ii) An amount not to exceed 75¢ per ton may be charged for the "double carry in" service. The "double carry in" service means the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space and up or down one flight of stairs to the buyer's fuel bin.

(iii) An amount not to exceed 40¢ per ton may be charged for the service of "trimming." "Trimming" means the arranging and placing of the fuel in the buyer's bin. This service charge for "trimming" shall be applicable only to the amount of fuel actually handled.

(e) *Transportation tax: Missouri State sales tax.* (1) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of the fuel and lists it separately on any sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof, the State Government or any political subdivision

thereof (See § 1340.265 (b) of Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or lesser quantities.

(2) *The Missouri State sales tax.* The seller may add to the prices listed in the schedule in section (c) the sales tax required to be collected by the laws of the State of Missouri. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(f) *Addition of increase in supplier's price prohibited.* (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(g) *Power to amend or revoke.* (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provisions thereof, at any time.

(h) *Petitions for amendment.* (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *License.* (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(j) *Sales slips and receipts, records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, showing the following information: The name and address of the seller and the purchaser; the kind, size and quantity of the solid fuels sold, the date of the sale or delivery and the price charged. In addition he shall separately state on each such invoice, sales slip or receipt the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated: *And further provided*, That provisions of this section shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

(k) *Posting of maximum prices.* (1) Each dealer subject to this order shall post all of the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(l) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Kansas City, Missouri District Office of the Office of Price Administration.

(m) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operating as an adjunct of any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but if this is unfeasible, because of the absence of a regular driveway free from all foreign matter which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group" and "production groups," as used in this order, refer to the production groups established by the former Bituminous Coal Division pursuant to the Bituminous Coal Act of 1937, as amended, and as in effect at midnight, August 23, 1943.

(6) "Price groups," as used in this order, refers to the price groups established by the former Bituminous Coal Division pursuant to the Bituminous Coal Act of 1937, as amended, and as in effect at midnight, August 23, 1943.

(7) "District No." refers to the geographical bituminous coal producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(8) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified in this order.

(9) "Low volatile bituminous coal" means coal produced in the low volatile

sections of the producing districts specified in this order.

(10) "Solid fuel" (or "solid fuels") means all solid fuel except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite; all coke, including low temperature coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and sea coal used for foundry facings.

(11) "Egg, nut," etc., sizes of bituminous coal refer to the sizes of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of the Interior, and in effect (or established) as of midnight, August 23, 1943.

Where the minimum price schedules do not make specific mention of any size designated in this order, such size designations shall refer to the sizes of bituminous coal sold as such in the area subject to this order during December, 1941.

(12) "Strip mine" means a mine producing coal by the strip method and taking its entire production from the ground after removing all overburden.

It appearing to the Commission that the legal fees and expenses incurred by Southwestern and by the underwriters are not unreasonable and that jurisdiction over them should now be released; and

It further appearing to the Commission that the condition in our order dated August 15, 1945, requiring the amendment of Electric's charter has been complied with;

It is ordered, That said applications and declarations, as amended, be, and the same hereby are, granted and permitted to become effective subject to the terms and conditions prescribed in Rule U-24, and that the jurisdiction heretofore reserved in connection with the proposed transactions be, and the same hereby is, released.
